São PAULO

They don't call São Paulo the 'concrete jungle' for nothing. The often misunderstood city is home to over 13 million people and is regarded as the business and financial capital of Brazil.

An aerial photograph of São Paulo, Brazil, showing a mix of modern skyscrapers and older buildings, a river, a highway, and a power line tower. The text is overlaid on a white rectangular background.

Yet that sweeping definition overlooks the quirks and curiosities that make São Paulo the buzzing cosmopolitan city that it is. For culture, visit some of the country's finest art galleries and museums before treating your palate at any of the international restaurants celebrated for their haute cuisine.

For a change of pace, head to Praça Roosevelt for hipster bars and an alternative, liberal crowd. Pack your stamina for the nightlife that helped give São Paulo its reputation as a city that doesn't sleep

RIO DE JANEIRO

A city known for its stark contrasts, Rio de Janeiro perfectly blends golden shores, tremendous forests, and a bustling metropolis to create a home for its six million residents and an exotic holiday destination for its millions of annual tourists.

Besides the obvious attractions such as Christ the Redeemer, Sugarloaf, and Copacabana, don't miss the more off-the-beaten-track spots such as the unforgettable TransCarioca 180-kilometer hike, or the mesmerizing sunset at Arpoador.

TRANCOSO - BAHIA

The little town of Trancoso, in the south of Bahia, has captured the attention and stolen the hearts of many a traveler. Since it was discovered by Europeans in the 1500s, it has been through various incarnations to become a holiday spot beloved of Brazilian bigwigs, celebrities, models, popstars and tourists.

One of the features that makes Trancoso so charming and so friendly is the Quadrado. It is a rough rectangle of grass edged by ancient trees that shelter brightly coloured fishermen's houses

BONITO = PANTANAL

Bonito is located in Mato Grosso do Sul on the border of the Pantanal and comprises crystal clear freshwater pools and deep abysses that create a unique ecosystem. Nutrient-rich rivers such as the Rio da Prata nourish hundreds of freshwater species and grant pleasant snorkeling opportunities among tight-knit shoals of brightly-colored fish.

From stalactite-carpeted caverns and underground lakes to a depression in the earth that supports the nest of flocks of macaws,

Bonito is a place that impresses with its ecology and beauty alike.

FOZ DO IGUAÇU

Down in the south of Brazil, straddling the border of Argentina and Paraguay, is the small town of Foz de Iguaçu, one of the most visited spots in the country. That's because it is home to the Foz de Iguaçu waterfalls, one of the world's largest falls comprising hundreds of mighty cascades.

Venture out onto the wooden platform that juts out over the 80-meter tall Devil's Throat fall where a mist clouds the bottom on a rainy day. Marvel at the exotic feathered friends at the bird park which has several ongoing conservation projects.

Other highlights include a trip to the Itaipu Dam, an imposing hydroelectric dam, and quick bus trips over to the border towns of Argentina,

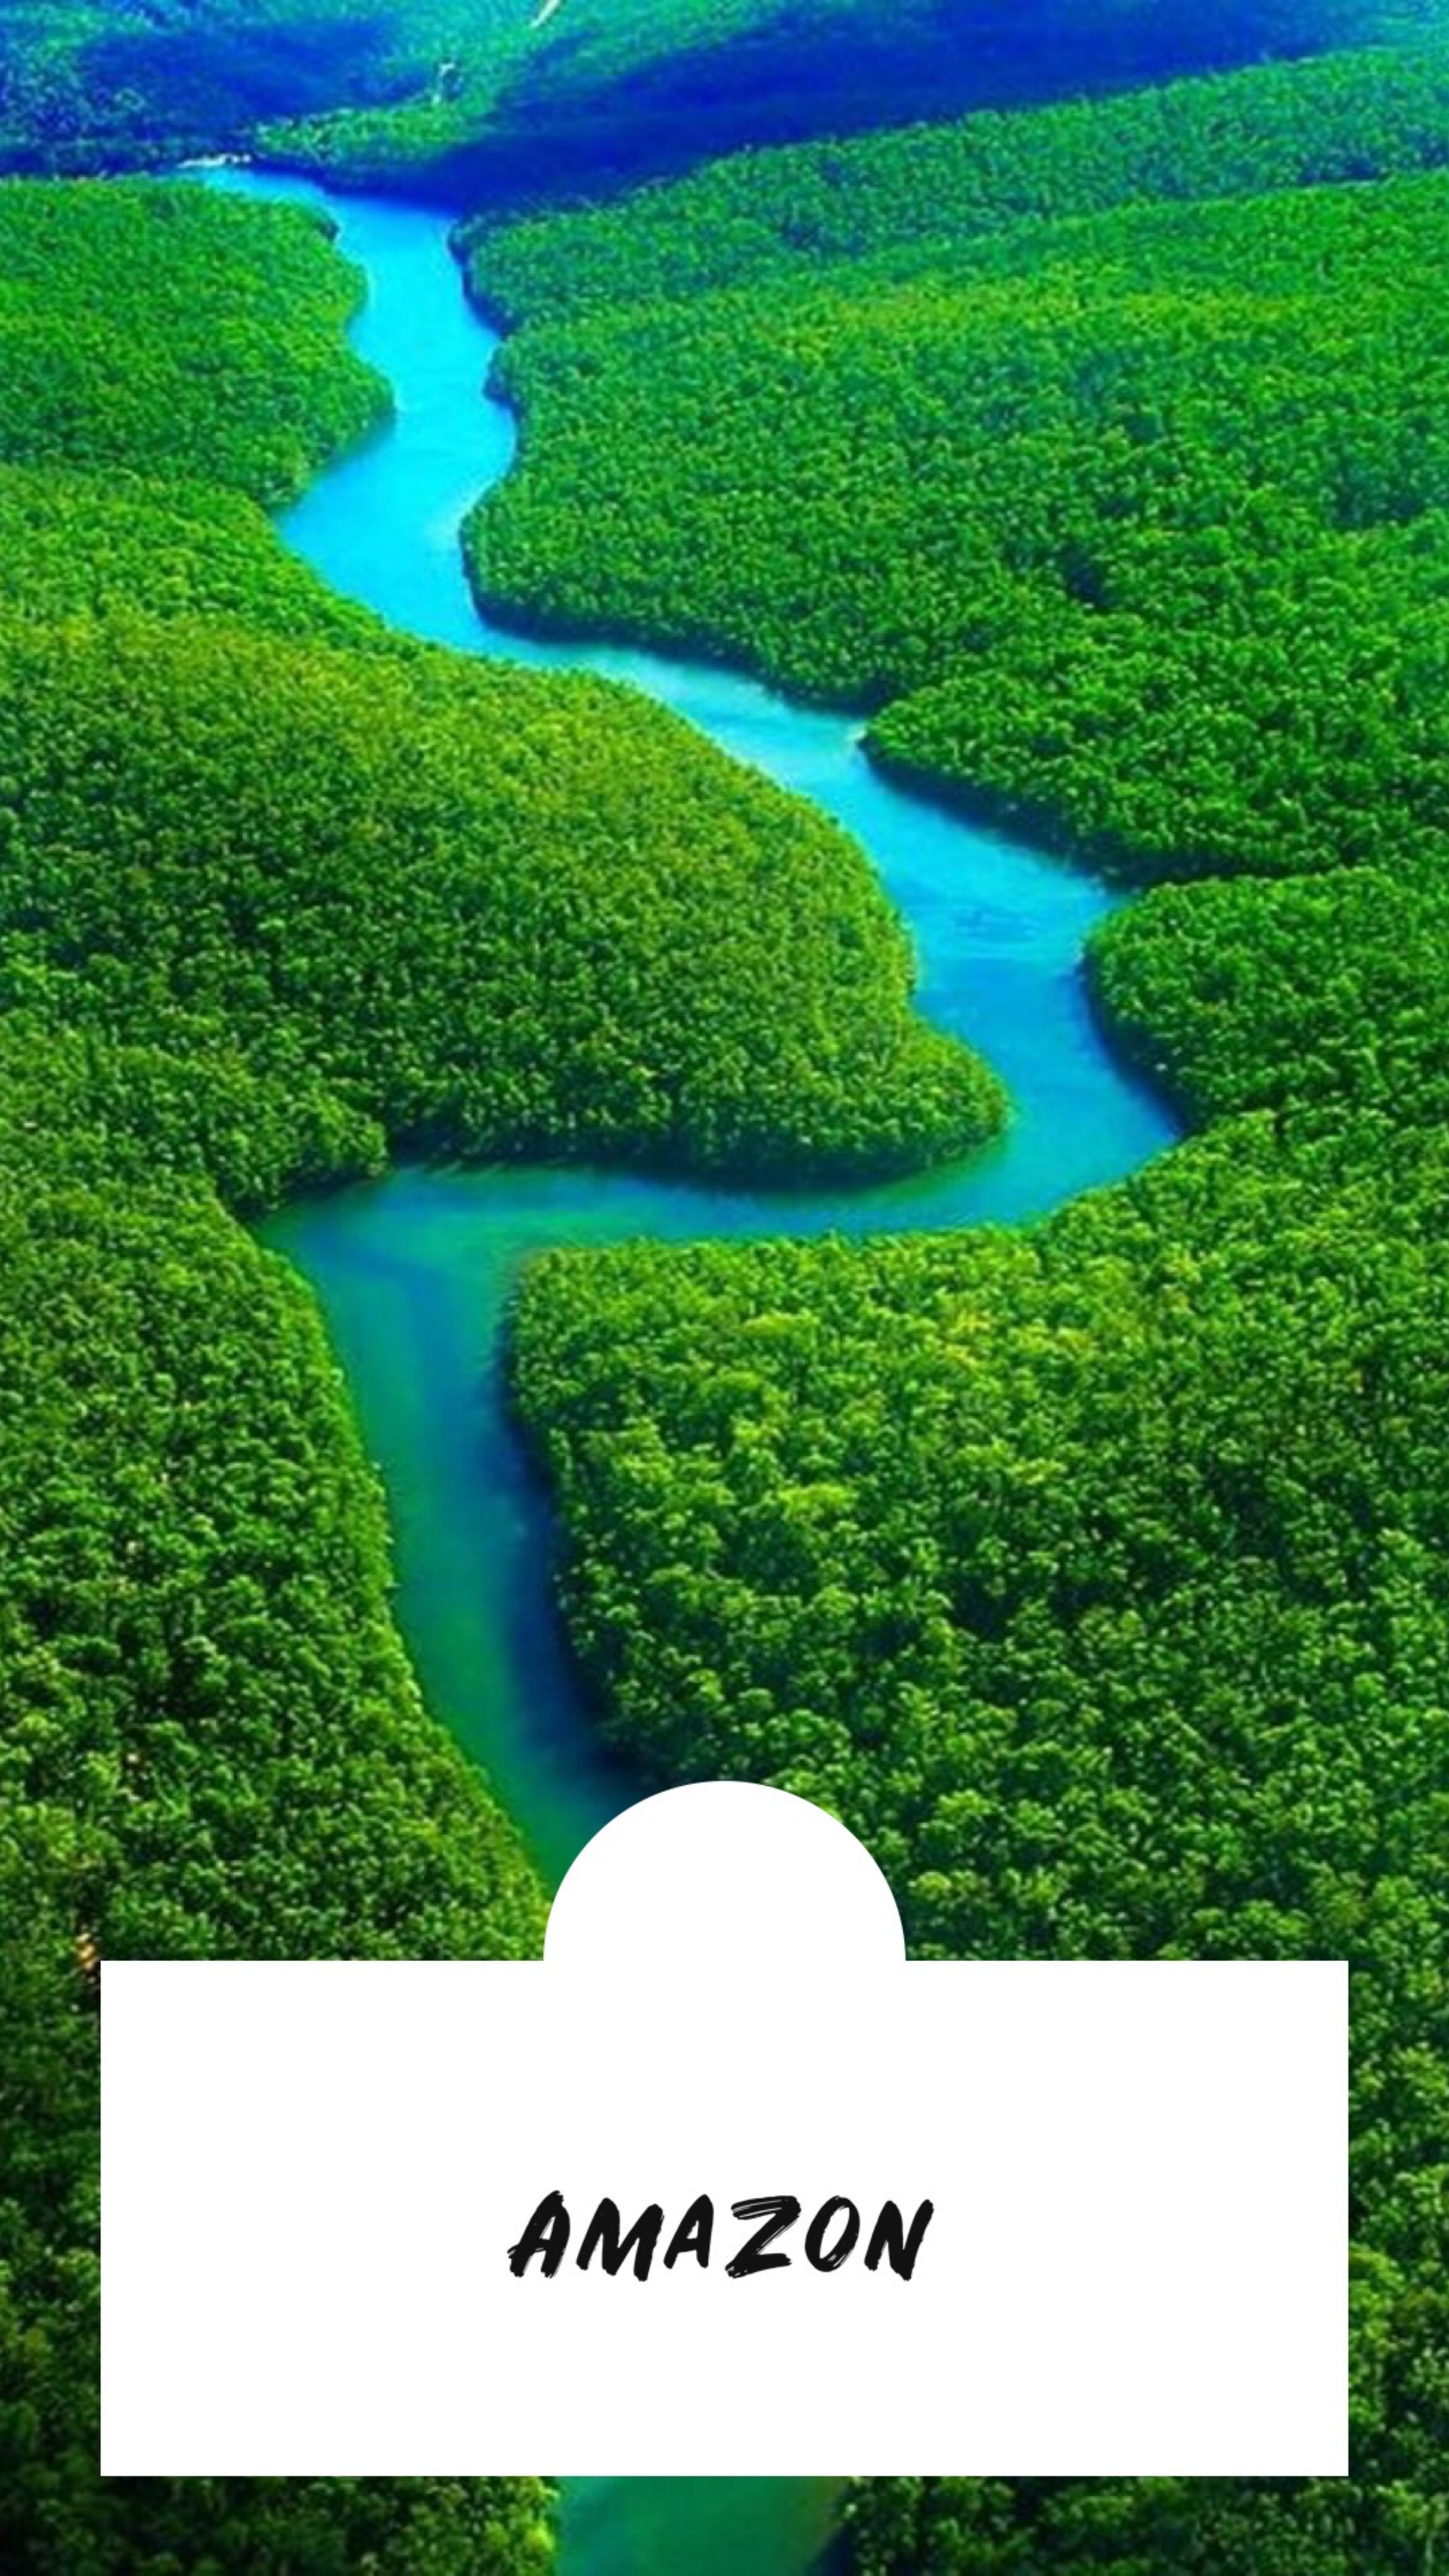

and Ciudad del Este in Paraguay known among savvy shoppers for its cheap and cheerful shopping opportunities.

Belmond Hotel das Cataratas

Restored to its original 1950s charm, the hotel's hacienda-style exterior is matched by its warm, inviting interior design.
